

Naloxone Distribution in Missouri

7/1/2020-1/31/2022

SOR, ENACT, and SAMHSA Block Grant all focus on uninsured and underinsured individuals who use drugs, distributing naloxone in communities that experience the highest impacts from the overdose crisis. Disaster Relief has the same focus but in communities directly impacted by disaster flooding in 2019. DOTS Project focuses on training first responders and naloxone distribution in 9 urban counties that account for most of fatal overdoses in Missouri. Below shows the distribution of naloxone across Missouri by the efforts of these five grants from the beginning of Fiscal Year 2021 through January, 2022 (19 months).

Total Kits Distributed

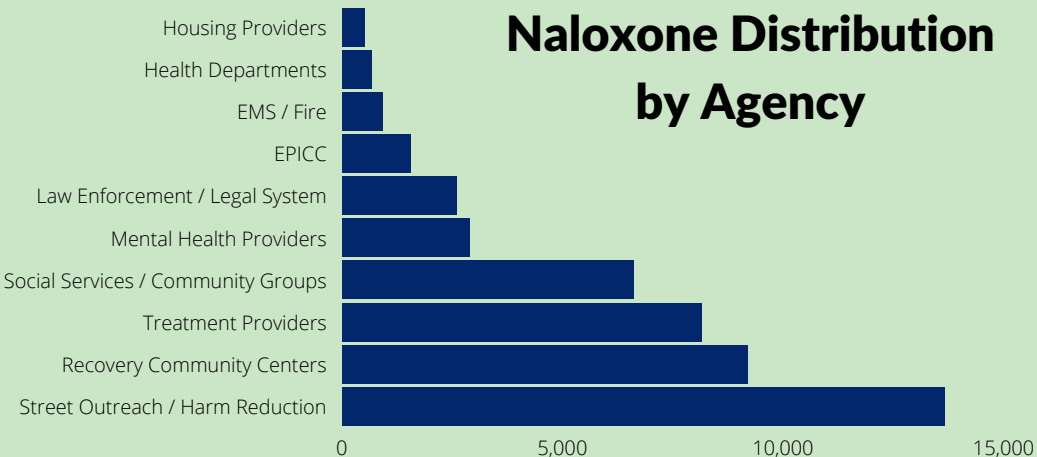

TOTAL OF

46,634

**NALOXONE KITS
DISTRIBUTED
BETWEEN 7/1/2020-1/31/2022**
